

I strongly urge you not to invalidate any of the provisions of Wisconsin's no call law. This law has greatly improved the quality of my life at home.

I am employed as a customer service representative in an auto parts warehouse. I spend 90% of my day on the telephone taking and placing orders and helping our customers. Sometimes my days can be very stressful. Before the no call law, it was very difficult to relax at home due to the large number of telemarketing and other unsolicited calls we received, many of them after 9 pm.

Since the Wisconsin no call law has been in effect, It has been much easier to relax and enjoy my meals and read or watch a movie without frequent interruptions by unwanted telephone calls.

Once again I urge you to leave the provisions of the Wisconsin no call laws alone and to allow them to be expanded to cell phones also.
